

## **In Memoriam**

IZWTAG would like to honor the memory of **Robert Johnson (1966 to 2018) of the Heiltsuk Nation**. Robert worked at the Bella Bella Transfer Station and Ecodepot from its beginnings in 2009, as the attendant and later as the supervisor.

Robert was an avid recycler and compost champion, providing the Bella Bella crew and solid waste working group with many hours of dedicated labor. Together with his peers from several First Nations, he made valuable contributions to the development of the first Transfer Station and Ecodepot training course.

Robert battled cancer courageously with his wife, Corrine, at his side. To the end, he was committed to his duties, envisioning the completion of the Bella Bella Recycling Building and Transfer Station upgrades.
