

BC Used Oil Management Association

Workshop Overview

IZWTAG Day | April 26, 2023

BC Used Oil
Management Association

What We Do

- Not for profit Stewardship Agency
- Manage collection and recycling of lubricating oil, antifreeze, the containers they were sold in and oil filters
- Collaboration of manufacturers and first sellers
- Provide province wide coverage
- Collect and manage
 - 46 M litres of oil
 - 2.2 M litres of antifreeze
 - 6 M oil filters
 - 1.6 M kgs containers

Application Process

**Do we need to
register?**

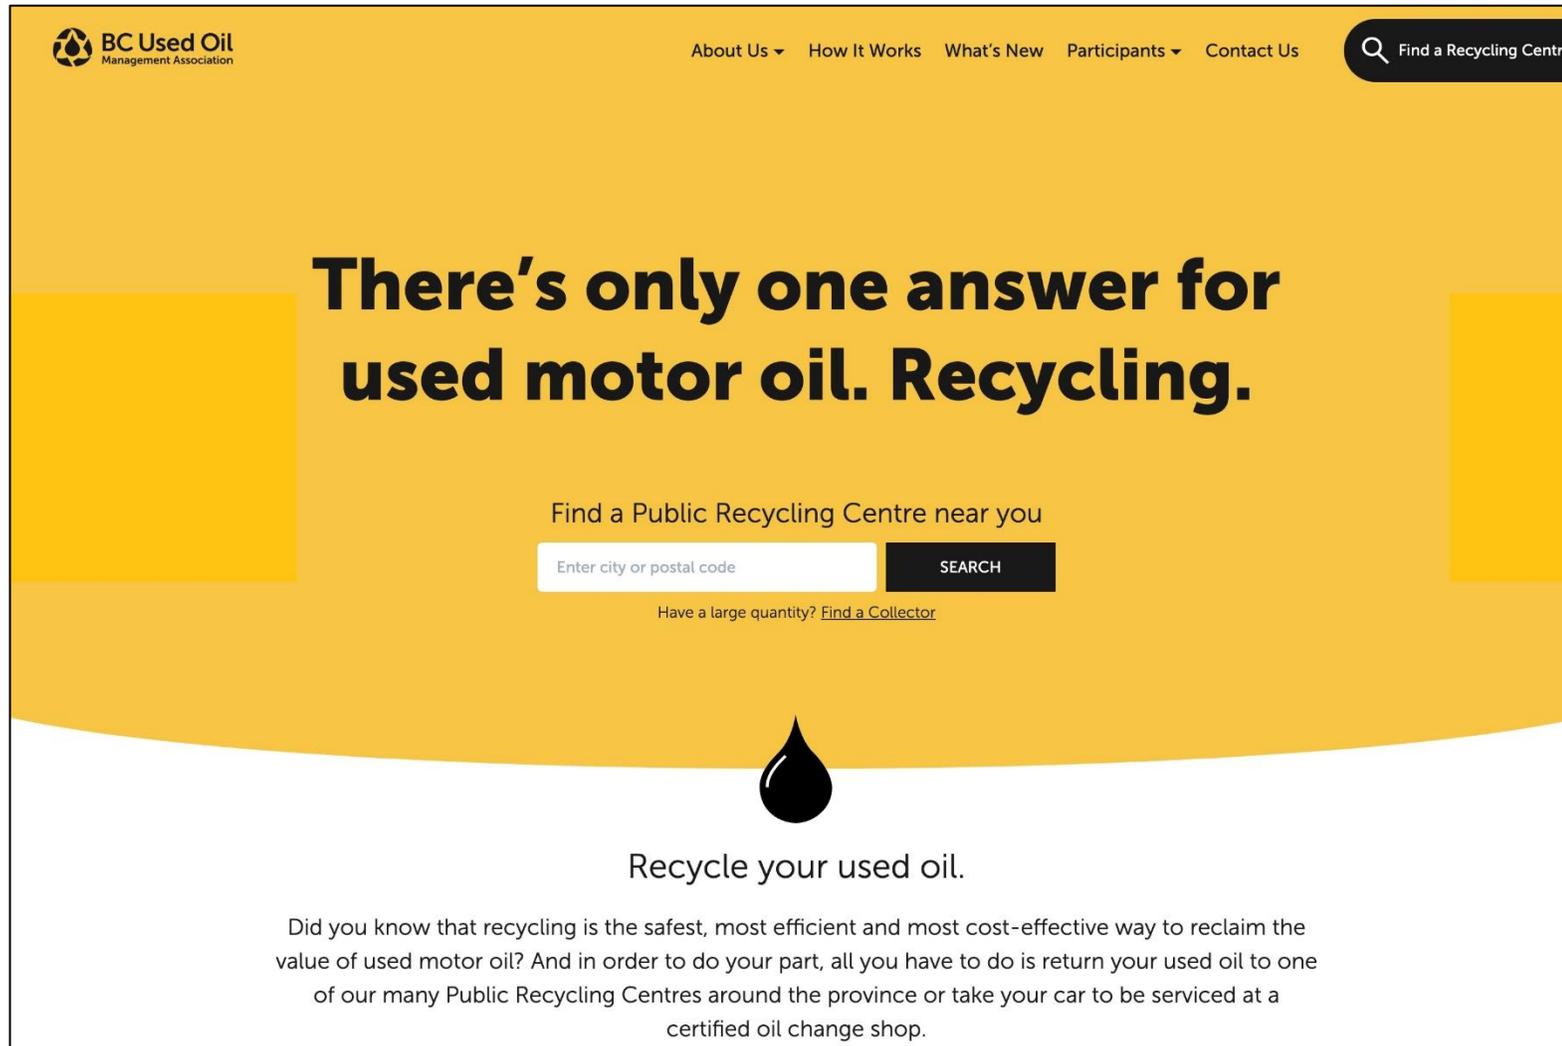

BC Used Oil
Management Association

Application Process

The screenshot shows the homepage of the BC Used Oil Management Association. The header includes the logo on the left and navigation links: 'About Us', 'How It Works', 'What's New', 'Participants', and 'Contact Us'. A search bar in the top right corner contains the text 'Find a Recycling Centre'. The main content area features a large yellow background with the headline 'There's only one answer for used motor oil. Recycling.' Below this is a search prompt 'Find a Public Recycling Centre near you' and a search form with a text input field labeled 'Enter city or postal code' and a 'SEARCH' button. A link 'Have a large quantity? Find a Collector' is positioned below the search form. At the bottom of the main area, there is a black oil drop icon, the text 'Recycle your used oil.', and a paragraph explaining the benefits of recycling used motor oil.

Find a Recycling Centre

There's only one answer for used motor oil. Recycling.

Find a Public Recycling Centre near you

Enter city or postal code

Have a large quantity? [Find a Collector](#)

Recycle your used oil.

Did you know that recycling is the safest, most efficient and most cost-effective way to reclaim the value of used motor oil? And in order to do your part, all you have to do is return your used oil to one of our many Public Recycling Centres around the province or take your car to be serviced at a certified oil change shop.

Application Process

The screenshot shows the BC Used Oil Management Association website. The header is yellow with the logo on the left and navigation links on the right. The main content area is white. The 'Participants' page is displayed, featuring a sub-header and four category tiles. A dropdown menu is open under the 'Participants' link in the header.

Participants

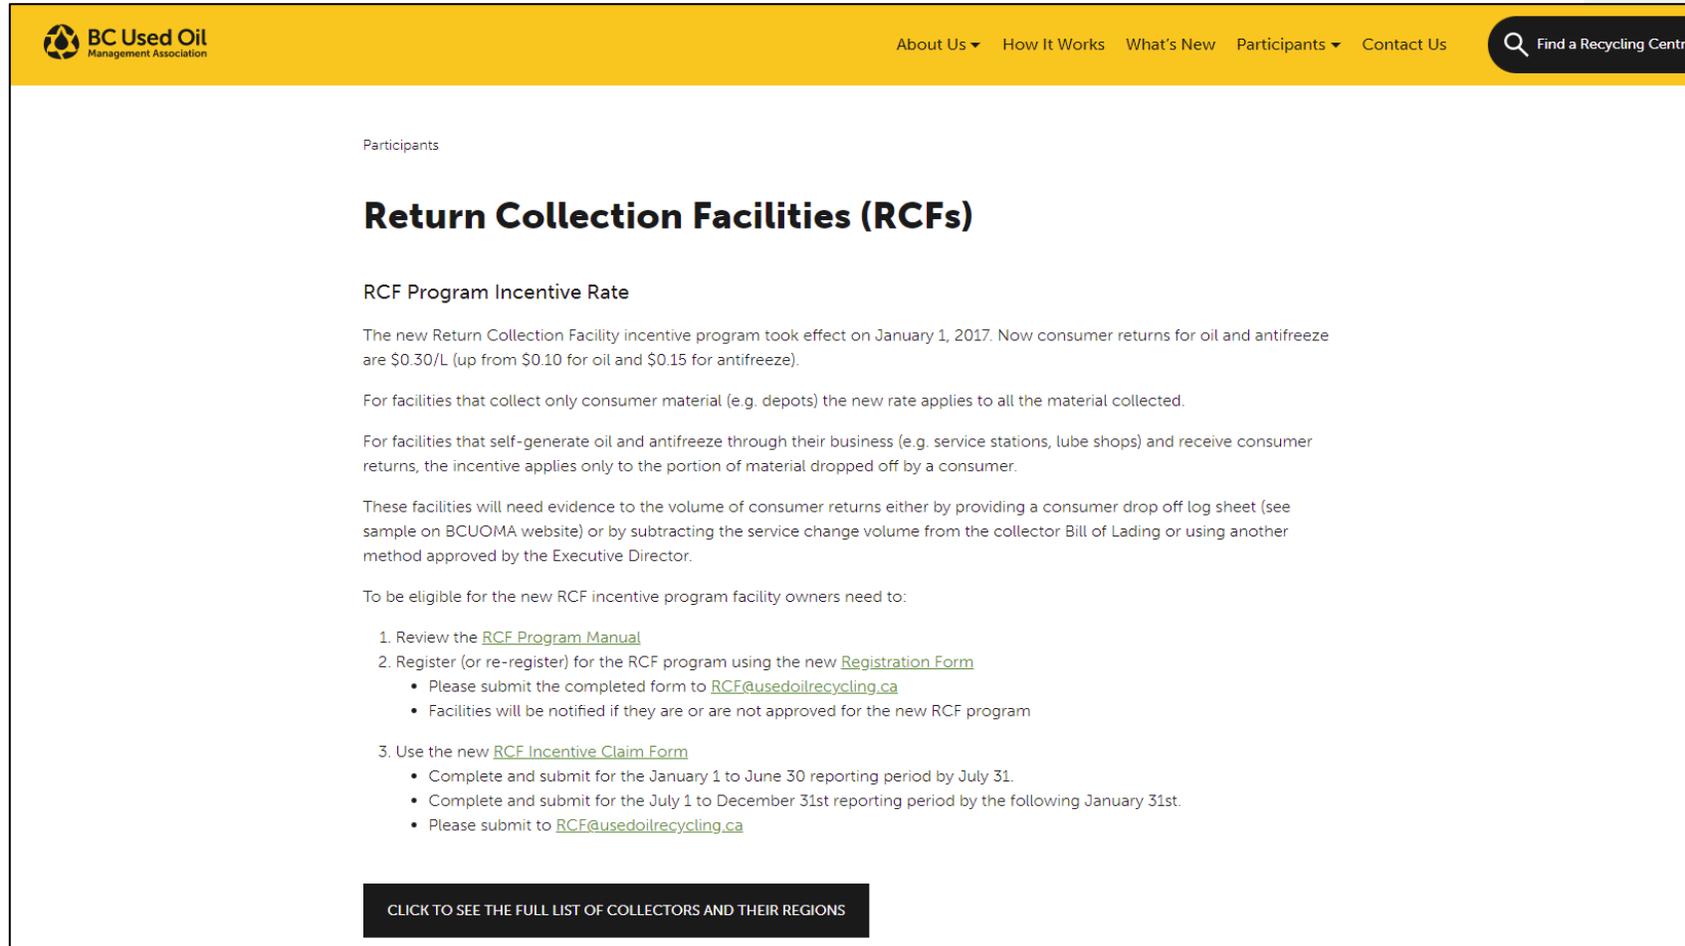

We can't change the world by ourselves. Our extended team is comprised of four distinct groups:

- Members**
- Return Collection Facilities**
- Processors**
- Collectors**

Participants dropdown menu:

- Members
 - AGM
 - Member Materials
 - EHC Remittance
- Return Collection Facilities (RCFs)**
 - Infrastructure & Round-Up Grants
 - RCF Signage
 - Top Collector Awards
- Processors
- Collectors
- Resources & Reports
- Board of Directors

Application Process

The screenshot shows the BC Used Oil Management Association website. The header is yellow with the logo on the left and navigation links on the right. The main content area is white with a yellow border. The page title is 'Return Collection Facilities (RCFs)'. Below the title is a section for 'RCF Program Incentive Rate' with several paragraphs of text and a numbered list of steps for becoming an RCF.

Participants

Return Collection Facilities (RCFs)

RCF Program Incentive Rate

The new Return Collection Facility incentive program took effect on January 1, 2017. Now consumer returns for oil and antifreeze are \$0.30/L (up from \$0.10 for oil and \$0.15 for antifreeze).

For facilities that collect only consumer material (e.g. depots) the new rate applies to all the material collected.

For facilities that self-generate oil and antifreeze through their business (e.g. service stations, lube shops) and receive consumer returns, the incentive applies only to the portion of material dropped off by a consumer.

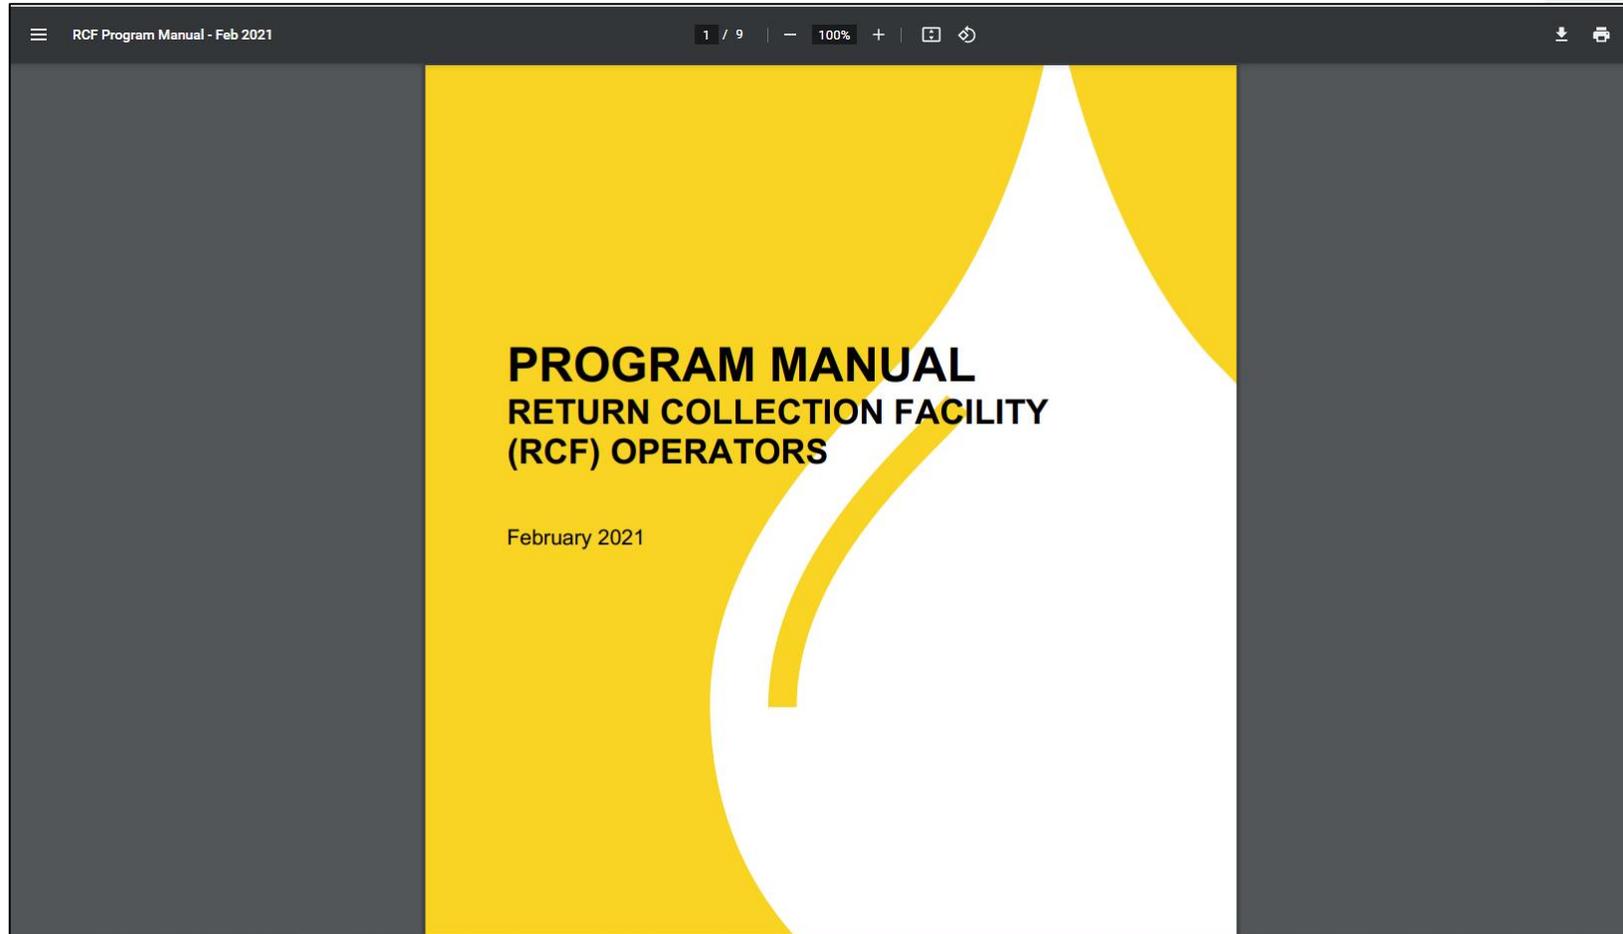

These facilities will need evidence to the volume of consumer returns either by providing a consumer drop off log sheet (see sample on BCUOMA website) or by subtracting the service change volume from the collector Bill of Lading or using another method approved by the Executive Director.

To be eligible for the new RCF incentive program facility owners need to:

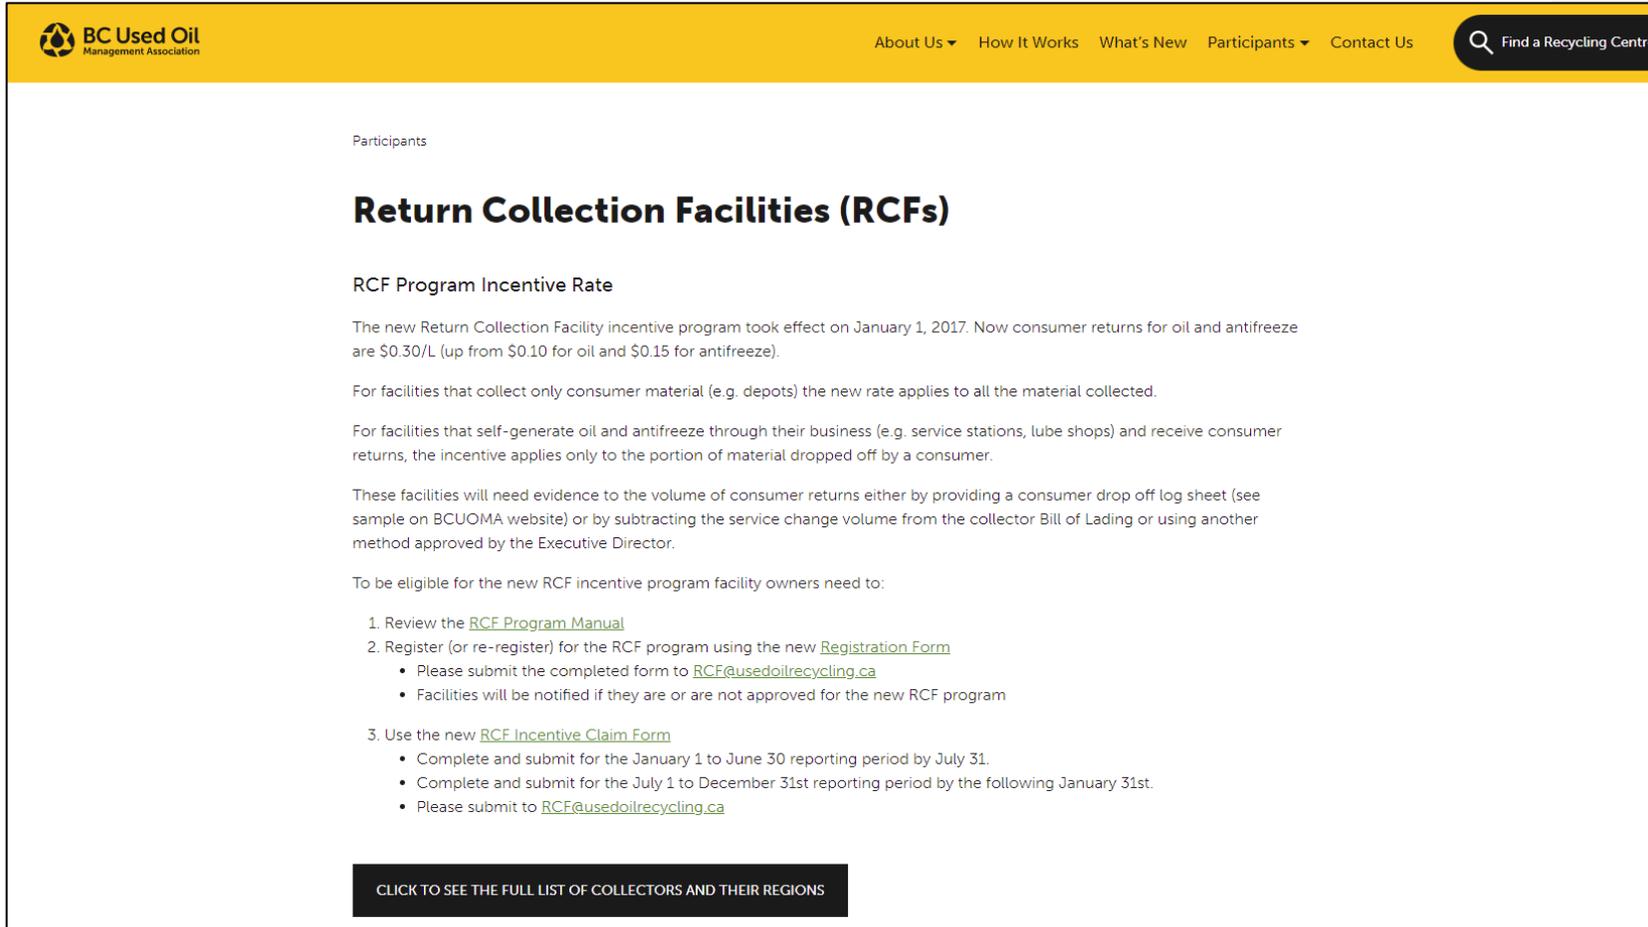

1. Review the [RCF Program Manual](#)
2. Register (or re-register) for the RCF program using the new [Registration Form](#)
 - Please submit the completed form to RCF@usedoilrecycling.ca
 - Facilities will be notified if they are or are not approved for the new RCF program
3. Use the new [RCF Incentive Claim Form](#)
 - Complete and submit for the January 1 to June 30 reporting period by July 31.
 - Complete and submit for the July 1 to December 31st reporting period by the following January 31st.
 - Please submit to RCF@usedoilrecycling.ca

Next Steps: Storage

BC Used Oil
Management Association

Next Steps: Grants

BC Used Oil
Management Association

Next Steps: Shipping

- Collectors contact info www.bcusedoil.com
- Call to request service
- Advise quantities to be collected
 - Drums (oil, antifreeze, filters)
 - Bags containers, stacks of pails
 - Bulk tank (litres)

Next Steps: Shipping

- Collector will provide
 - Manifest (copy left on site)
 - Drum labels
 - Empty drums & bags (exchanged one for one)

Next Steps: Claims

- Complete claim form twice yearly (Jan & Jul)
www.bcusedoil.com
- Submit claim form and Manifest/Bill of Lading
- Receive payment via EFT

Thank You
